

## PITCAIRN ISLAND STAMP AND COIN OPERATIONS

The Government of the Pitcairn Islands (GPI) invites Expressions of interest (EOIs) from experienced producers of stamps and coins to produce and market stamps and coins for GPI and manage the processes.

The successful bidder will need to demonstrate the ability to create marketable designs that maximise profit; produce quality designs and production at cost effective prices; market the final products to logical markets and deliver the product to customers. The EOI should include ideas of the types of coins and stamps you plan to produce and explain how this will maximise sales.

GPI will wish to negotiate a contract that incentivises profit and penalises under-performance. We welcome suggestions as part of the EOI of what you consider fair and achievable to both parties.

Coins and stamps need to follow the guidelines set by GPI and the Royal Household. Evaluation of EOIs will be against the criteria set out in the scoring sheet. Parties intending to bid should contact [evan@pitcairn.gov.pn](mailto:evan@pitcairn.gov.pn) for copies of both documents or download from the [Pitcairn Government website](#). Please direct any questions that you have to Evan at the above email address. All bidders will be notified of all question and answers received.

EOI's should reach [evan@pitcairn.gov.pn](mailto:evan@pitcairn.gov.pn) on or before Friday 16 November 2018 (NZ time).
